A Proposal from the Digital TV market

An application for the XHTML Print requests PWG for CSS-Print profile extension
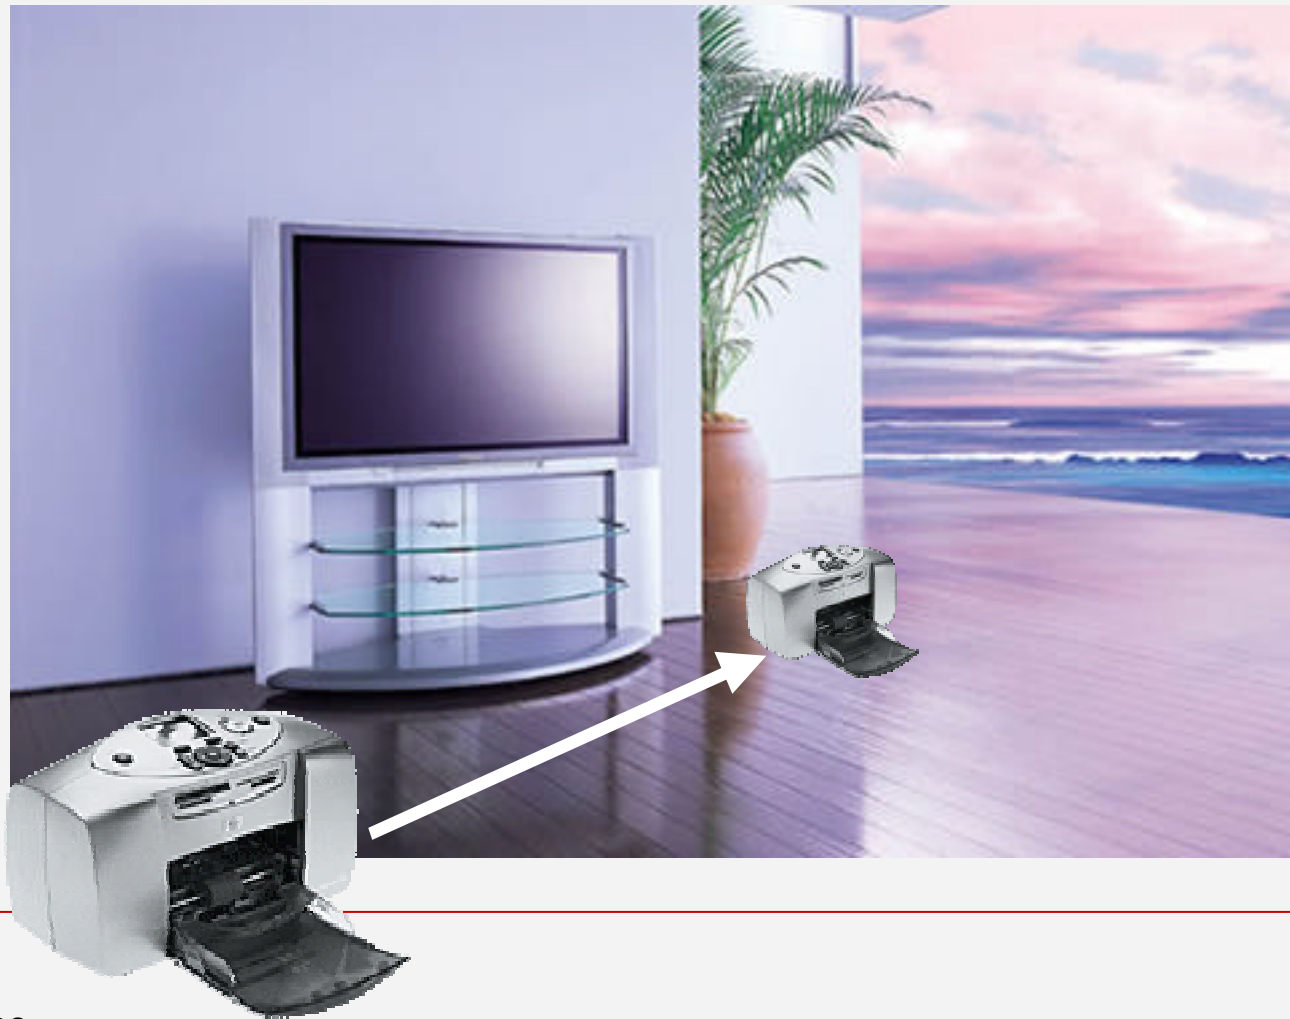

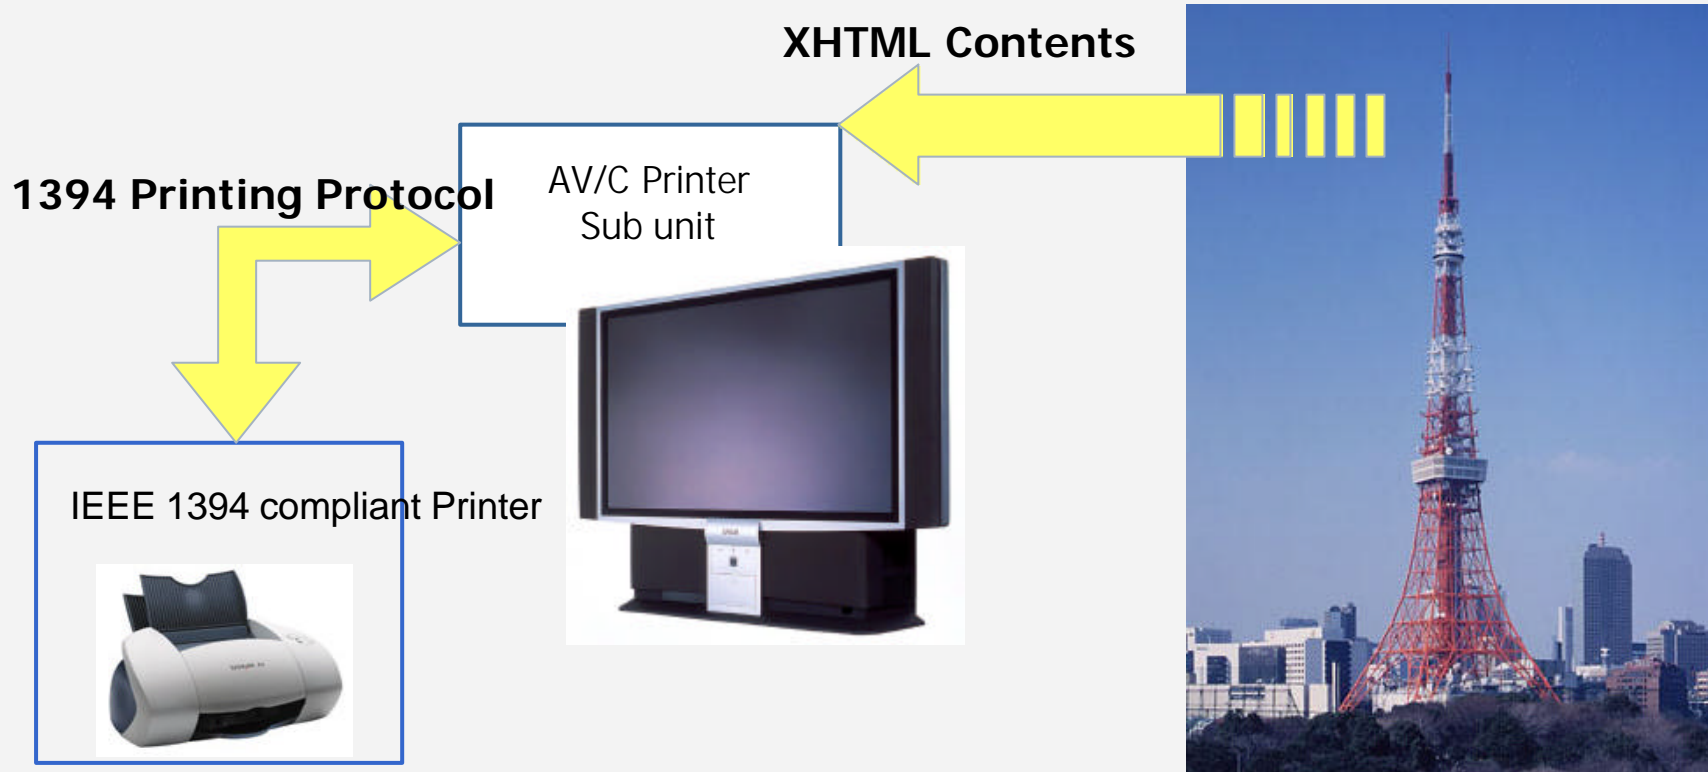

Reported from Fumio Nagasaka / EPSON

1394 TA at Apple Campus

☐ Oct. 15 '2002 at Cupertino

- ■ Some of Consumer Electronics makers had requested to use a PWG standard "XHTML Print", over the 1394 AV/C Printing protocol.

- ■ They are assuming the goal to use 1394 printer to print XHTML pages from broadcasting stations.

- ■ Print by reference over broadcasting.

Side space of a Digital TV is sweet

Print by reference from the Air

XHTML Contents

1394 Printing Protocol

AV/C Printer
Sub unit

IEEE 1394 compliant Printer

4

What are issue?

- □ Addition for the CSS-Print Profile
  - ■ Background support and more
- □ Some of proposal documents want to refer the PWG specification
  - ■ Proposal for ARIB
    - □ www.arib.or.jp
      - ■ Association of Radio Industries and Businesses
  - ■ Proposal for JEITA
    - □ www.jeita.or.jp
      - ■ Japan Electronics and Information Technology Industries Association
