A Proposal from the Digital TV market

An application for the XHTML Print requests PWG for CSS-Print profile extension

Reported from Fumio Nagasaka / EPSON

1394 TA at Apple Campus

Oct. 15 ‘2002 at Cupertino

- Some of Consumer Electronics makers had requested to use a PWG standard “XHTML Print”, over the 1394 AV/C Printing protocol.

- They are assuming the goal to use 1394 printer to print XHTML pages from broadcasting stations.

- Print by reference over broadcasting.
Side space of a Digital TV is sweet
Print by reference from the Air

1394 Printing Protocol ➔ AV/C Printer Sub unit ➔ XHTML Contents

IEEE 1394 compliant Printer
What are issue?

- Addition for the CSS-Print Profile
  - Background support and more
- Some of proposal documents want to refer the PWG specification
  - Proposal for ARIB
